## EDUCATION

### **Bogura Govt. Girl's High School**

Science

SSC: 2018-19

### **Govt. Ashek Mahmud College , Jamalpur**

Science

HSC : 2020-21

### **American International University – Bangladesh**

Department of EEE

2023 – Present

## SKILLS

- Embedded Robotics
- Power System Design
- Microcontroller Projects
- Circuit Simulation & Design
- IoT-Based Solutions

# NOURIN AKTER ATUL

## ABOUT ME

Hello! I'm Nourin Akter Atul, a passionate and curious learner pursuing a degree in Electrical and Electronics Engineering (EEE). From a young age, I've been fascinated by how machines work and how technology can solve real-world problems. My interests span embedded systems, robotics, power system design, and microcontroller-based prototypes. Right now, I'm working on creating an autonomous robot—a project that combines hardware and software, and gives me hands-on experience. Aside from academics, I enjoy attending tech workshops and collaborating on innovative ideas to stay updated in this fast-paced field. I believe in continuous learning and aim to build IoT-enabled solutions that drive impact.
